

Brand New Day II

Want a new job, trade-in my wife
Get some new friends, got to make a new life
A new day is coming, soon I'll be free
Won't let the chains of complacency, get the best of me

*Embrace change when it comes your way
And turn the page on a brand new day
Yeah, a brand new day; it's a brand new day*

Got a new job and a new wife
A bunch of new friends, man I love my new life

*Embrace change when it comes your way
And turn the page on a brand new day
Yeah, a brand new day; it's a brand new day*

So if you're down on your luck, unsure of what to do
Remember, embrace change when it comes your way
And turn the page on a brand new day
Yeah, it's a brand new day, a brand new day, brand new day
