

## **Dandelion**

*Dan-de-lion*  
*Where did you go?*  
*Dan-de-lion*  
*Something you should know*

I never meant to hurt you  
Or cause you any pain  
And now that you're gone  
I want you back again

Thoughts of you  
Cloud my head  
Trying to forget  
All the things you said

*Dan-de-lion*  
*How could you just let go?*  
*So effortlessly, I need to know*  
*Cuz, dan-de-lion*  
*You meant so much to me*  
*Dan-de-lion, don't want to set you free*

As time passes by  
I guess we'll never know  
What could have been  
And what we let go

*Dan-de-lion*  
*How could you just let go*  
*So effortlessly, I need to know*  
*Cuz, dan-de-lion*  
*You meant so much to me*  
*Dan-de-lion, don't want to set you free*

I never meant to hurt you  
Or cause you any pain  
And now that you're gone  
I want you back again

*Cuz, dan-de-lion*  
*You meant so much to me*  
*Dan-de-lion, I've got to set you free*
