

## **Smile Away**

Smile away, when you're feeling blue  
Smile away, it'll get better for you  
When times get tough, and life gets you down  
Smile away, things will soon turn around

Smile away, girl don't you cry  
Smile away and never ask why  
Good times and bad, both come and they go  
From the pouring rain, comes a brilliant rainbow

*Smile away, the tears of today  
Smile away, tomorrow's a new day  
When you smile away, then you will see  
Your smile will set you free*

Smile away, when nothing seems right  
Smile away, cuz the end is in sight  
Live each day as if it were your last  
Remember my friend, this too shall pass

*Smile away, the tears of today  
Smile away, tomorrow's a new day  
When you smile away, then you will see  
Your smile will set you free*

Smile away, when you're feeling blue  
Smile away, it'll get better for you  
When times get tough, and life gets you down  
Smile away, things will soon turn around
