

Sun Shine Down on Me

The sun will set you free
Sun shine down on me

Sunny day, nothing to do
Lie in the grass and dream of you
As the sun begins to shine
You're the one that's on my mind
But for now, the days seem long
Without you near and in my arms

Sunny day and you're miles away

But the sun will set you free, Sun shine down on me

Sunny day, blue sky above
Head in the clouds, I'm dreaming of
Times together, not long ago
When love was all we had to know
But for now, the days seem long
Without you near and in my arms

Sunny day and you're miles away

But the sun will set you free , Sunshine down on me

Sunny day, together again
The miles erased, we're hand in hand
We make a toast and drink the wine
The two of us just feeling fine

Sunny day and you're miles away

But the sun will set you free, Sun shine down on me
