

Persevere

When times get tough
as they often do.
Plant your feet firmly
you're going to make it through.

Dig down deep inside
and don't be afraid to cry.
But whatever you do
don't ever ask why.

Remember what got you this far
you made it on your own.
But also remember family and friends are here
to make sure you're not fighting alone.

Today the chips seem down
tomorrow's a brand new day.
And you know what you have to look forward to
everything going your way.
