

This song was re-written in January 2021 to reflect the privacy issues of the day. It was also influenced by the Eagles 1970's classic rock song, "On the Border." Remember, someone is always watching you.

## **Big Brother**

Life in the fast lane

In a new Corvette

Looks like a Monet

And sounds like a jet

Listenin' to Skynyrd

I'm feelin' so free

Then out of nowhere

A voice says to me

"We know who you are

Pull over, my good friend

Your driver's license

We must now suspend"

Be careful what you say

Be careful what you do

Be careful cuz big brother

Is always watchin' you

Researchin' the web

The hour is late

Lookin' for the news

On the state of the state

The next thing I know  
And I can hardly believe  
A Party spokesman  
Is talkin' to me

"We know who you are  
Log off, my dear friend  
Your Internet privilege  
We must now suspend"

Be careful what you say  
Be careful what you do  
Be careful cuz big brother  
Is always watchin' you

(Bridge)

This may all sound crazy  
Even hard to believe  
But individual freedom  
Can be taken  
From you and me

Instrumental

Out for the evening

It's a Saturday night  
Having some coldies  
We're feelin' alright

When from my cell phone  
A voice can be heard  
Sayin' it's listenin'  
To every word

"We know who you are  
Good comrade and friend  
Social gatherings must now  
Come to an end"

Be careful what you say  
Be careful what you do  
Be careful cuz big brother  
Is always watchin' you  
Watchin' you, watchin' you, watchin' you
