

## The Healer

When you're down on your luck

Don't know which way is up

Call The Healer

If you're feeling blue

Don't know what to do

Call The Healer

The Healer knows, The Healer shows

The Healer comes, The Healer goes

The Healer seeks, The Healer finds

Just the right balance, between body and mind

When you're filled with doubt

Can't see a clear way out

Call The Healer

If you've had enough

Feel like giving up

Call The Healer

The Healer knows, The Healer shows

The Healer comes, The Healer goes

The Healer seeks, The Healer finds

Just the right balance, between body and mind

## Bridge

Life presents challenges  
We know that is true  
But you can call The Healer  
To help you make it thru

## Instrumental

So when you're down on your luck  
Don't know which way is up  
Call The Healer

If you're feeling blue  
Don't know what to do  
Call The Healer

The Healer knows, The Healer shows  
The Healer comes, The Healer goes  
The Healer seeks, The Healer finds  
Just the right balance, between body and mind  
So when you're way out of line...Let The Healer realign  
Your body and mind...Yeah, your body and mind...body and mind
