

## **A Girl Like You**

When we first met  
She threw me a look  
And in that moment  
I knew I was hooked

She was a brown-eyed girl  
In a little sun dress  
That caught more than my attention  
I must openly confess

She was the girl I wanted  
The girl of my dreams  
And now that girl  
Was looking at me

*A girl like you*

*A girl like you*

*So much to say*

*So much to do*

*With a girl like you*

*A girl like you*

*Yeah, a girl like you*

Thoughts of this girl  
Now fill my mind  
She's the one I think of  
All the time  
The brown-eyed girl  
In the little sun dress  
Left quite an impression  
I must honestly confess

She was the girl I wanted  
The girl of my dreams  
And now that girl  
Was looking at me

*A girl like you*  
*A girl like you*  
*So much to say*  
*So much to do*  
*With a girl like you*  
*A girl like you*  
*Yeah, a girl like you*

Instrumental

And when we kissed  
The sparks just flew  
She brought out feelings  
I never knew

And now the brown-eyed girl  
In the little sun dress  
Gives me all her affection  
I must secretly confess

She was the girl I wanted  
The girl of my dreams  
And now that girl  
Was looking at me

*A girl like you*  
*A girl like you*  
*So much to say*  
*So much to do*  
*With a girl like you*  
*A girl like you*  
*A girl like you*  
*A girl like you*  
*A girl like you*
